

Queen City Yacht Club

CLUB USE PARAMETERS DURING COVID-19 Updated April 21, 2022

General Member Considerations

- If you or a guest have been diagnosed with or tested positive for COVID-19, or are feeling sick, have a fever or cough, sore throat, or shortness of breath, **don't come to the Club.**
- If you have symptoms or a positive test result:
 - You must isolate for 5 days from the earlier of (a) the onset of symptoms or (b) the positive test result;
 - You may return to the Club House and utilize the Club tender only after your 5-day isolation, **but you may not remove your mask for any reason for an additional 5 days.**
- If someone in your household is Covid-positive or you think you have been exposed:
 - Self-monitor for symptoms and/or get tested for 10 days after the possible exposure;
 - **You are required to wear a mask at all times while on the Club tender and in the Club House**
 - If you begin to experience symptoms and/or test positive within 10 days from exposure, you must isolate for 5 days from the onset of symptoms or positive test, whichever is earlier;
 - People living in your household, whether symptomatic or not, should consider isolating for the same duration;
 - Should someone living in your household subsequently begin to experience symptoms and/or test positive, their isolation time resets from the onset of their symptoms or positive test, whichever is earlier;
- Notify the Club Office if you or someone you live with has been exposed to or diagnosed with COVID-19 **and** you have been at the Club by emailing manager@QCYC.ca.
- Wash your hands often and before/after using common equipment, don't touch your face, cough into your elbow.
- Do your best to stay 6 ft. (2 meters) away from other members and staff who are not in your household.
- Recommend: no hugging, handshakes, fist bumps, high-fives. Carry your own hand sanitizer around while on-site.
- Follow the government and public health guidelines for most up to date information.

Use of Masks & Eye Protection

- Face masks are mandatory on the QCYC tender and in the office, until further notice.
- It is recommended that masks are to be worn while in the yard during launch and haul out.
- It is recommended that masks are to be worn inside the Dining Room and Great Hall unless you are seated.
- KN95 and N95 masks offer better protection than cloth masks, gaiters, buffs, bandanas, plastic masks, and face shields.
- Eye protection is also important. Sunglasses count as eye protection.

Current Sailing/Boating *(directly from Transport Canada)*

- Avoid any unnecessary contact with others during your trip.
- Don't share your boating equipment.
- Keep a distance of at least 2 meters from other people and boats as much as possible
- Avoid using boat ramp docks while other people are on them.
- Don't beach your boat right next to someone else.
