

# The Clipper

JAN 72

## NEW BOARD IS "ON THE JOB"

Anxious to get down to business, your new board of directors held their first meeting one week after election on December 17th.

The meeting was general rather than specific and a wide spectrum of problems was discussed. Many ideas were expressed and the management committee under the chairmanship of the Vice-Commodore has some guidelines to follow.

It was unanimously agreed that if the directors are to make rational decisions, they must be provided with up to the minute financial reports. Such reports will only be possible if the club hires a qualified person. With this in mind, the management committee has been asked to formulate a system of control and reporting, make out a job definition for the staff member who will execute the system and hire a person for that job.

Your directors will do everything in their power to make sure your club runs smoothly and provides the maximum in relaxation and recreation at reasonable cost. With your help and co-operation, we are confident we can look forward to a successful season in 72.

GENTLEMEN . . .

He has 18 Canadian Power Squadron merit marks representing 18 years of service. He was Secretary for 5 years, Vice Commander for 3 years. He taught the weather course for 5 years and was national chairman of the course. He has successfully completed all Power Squadron courses except the one on engine maintenance.

He was born in Korea of missionary parents.

He joined QCYC in 1950 and has served as Treasurer for three different years.

During his 5 years with the RCAF in Europe he earned his wings as flight engineer, pilot and navigator. He completed his wartime service by shepherding a number of aircraft back across the Atlantic in an old Dacotah.

He is active on his Church board and has participated in the choir for 26 years.

He sailed a small hard-chine sloop named Flight out of Queen City for 17 years.

He bowls every Friday night for relaxation.

He was chairman of the racing rules committee of the Alberg

30 Association before he got his own Alberg 5 years ago.

He, his crew and his boat have won every cup available to them except the Gay Gordon Cup.

He flies what is possibly the only plaid spinnacker in captivity.

In times of celebration he may be seen wearing a kilt in the great hall.

Clues have varied from the obscure to the specific, but the last few should reveal all. We are speaking of course of Mr. Gordon Proctor . . . YOUR COMMODORE
