Night classes for technical training will be established in Hamilton. Sr. Wilford Laurier will be unable to be present to open the Klugeon Fair on Tuesday. Bearskins are becoming so scarce that the British Guards may be forced to abandon the historic bearskin. Brantford will build a new Isolation Hospital, and make a large addition to the John H. Stratford Hospital. The private banking firm of William Mowat & Son, Stratford, has assigned. The firm claims a surplus of \$45,000. It is said the municipal reforms recommended by the special committee in Hamilton will be opposed by the Finance Committee. Mr. George B. Tuckett, of Hamilton, offers \$1,500 a year for a little over seven acres in Victoria Park in that city, to use for building lots for his employes. During the year ending March last the British postoffice handled 3,486,000 postal packages, and profted by \$18,000,000. The Anglo-Indian troops will, in future, live under canvas in the winter, instead of in barracks. This is to check enteric fever. Fully 600 Americans are stranded in London, being unable to secure passage home on account of the rush of passenger traffic. Funds being scarce, Rev. C. M. Macdonald, Vicar of St. John the Baptist Church at Spalding, Eng., painted his church himself. Angus Young admitted stealing five cents' worth of corn in the Hamilton Police Court, and the charge against him was dismissed upon his paying \$9.90 costs. The Duke of Orleans, who has arrived in England, has been appearing at dinner dressed in a velvet smoking jacket, white knee breeches and diamond buckled shoes. Active preparations are being made for the celebration of the silver jubilee of the consecration as Bishop of Archbishop Duhamel, of Ottawa, which will be celebrated during the latter part of October. It is expected that the wrecked Douglas Houghton, which is blocking the outlet from Lake Superior, will be moved to-day. She has been patched and pumped out. Lt. Col. H. H. Burney, of the Gordon Highlanders, has been appointed professor of strategy, tactics and staff duties at the Royal Military College, Kingston, and has assumed his duties. In consequence of the Public Schools of Brantford falling to prepare an adequate supply of pupils for the entrance examinations, the first forms of the Collegiate Institute are practically empty. Lord Rosebery, in speaking to railway employees, said the "American" railway system suited the "American continent," and the British system suited the British. American railway president, he said, put more on style than English does. The Earl of Jersey will, it is most probable, be appointed the first Governor-General of the Commonwealth of Australia, so soon as the ratifying act has passed the Imperial Parliament. It is rumored in London that a tentative agreement has been reached whereby until the Alaskan boundary is settled, Canada is to have ports on the Lynn Canal and at Pyramid Harbor, and the United States gets additional rights for New England fishermen. IN THE NORTHWEST. The Manitoba and Northwestern Railway crop report shows a considerable quantity of grain yet to cut. The weather is warm and dry. The yield in some places goes as high as 42 bushels to the acre. ITEMS FROM QUEBEC At St. Agathe, the villa of Alfred Hayes, a Montreal jeweller, was burned, causing \$5,000 loss. Mr. Hayes and his servants had a narrow escape. NEWFOUNDLAND. French officials are carefully watching the trial of Ingram Taylor, at St. John's, Nfld., charged with burning the French lobster factory, and will probably demand compensation in the event of a conviction. OVER THE BORDER. Two regiments of negro troops are to be raised for service in the Philippines. Hon. James B. Eustis, former United States Ambassador to France, died at Newport. Four Key West passengers who have arrived at New York have sickened, one with yellow fever. Boat traffic has been opened down from Lake Superior by the old original canal. The U. S. cruiser Olympia, with Admiral Dewey, has sailed from Gibraltar for New York. The 13th Minnesota and the South Dakota Regiments have returned to San Francisco from the Philippines. Vessels of the Peary expedition have called at Esbjerg, Nfld., and report that all is well with the party, and a lot of exploring has been done. A statement from the United States War Department shows that within the past seven months the exports to Cuba have increased ten million dollars, and the imports seven million dollars. Chicago's invitation committee have left for Quebec, to invite Lord Minto, the Cabinet Ministers, and the mayors of Ottawa and Quebec, to the fall festival in Chicago. A delegation of about 60 Congressional ministers, and their friends and wives, arrived at New York on Friday from England and Wales. They will attend the International Congressional Council meetings, to be held in Boston next month. Before returning to England the party will visit Toronto.

BOHOES FROM GREAT BRITAIN.

A greatly improved armor plate has been tested in England recently. The strike of seamen and firemen in Great Britain has so far failed to cripple the ship owners. Queen Victoria is said to believe that she descended from King David through Zedekiah's eldest daughter. Many of the Anglican clergy in England refuse to read the Archbishop's letter regarding Ritualism to their congregations. Chas. Black, of Montreal, chief mate of the bark Lamarkshira, is under arrest at Glasgow, charged with shooting and killing a negro seaman named Trott. THE WIDE WORLD. Russia has restrained Turkey from mounting several pneumatic dynamite guns at the Black Sea entrance to the Baltic. The revolution in Venezuela, under the leadership of Gen. Castro, is gaining ground. The insurgents are now three days' march from Valencia. A report says that an exploring party, who left Bulawayo for Central Africa, have, with one exception, been murdered by natives. A NEW CANOE CHAMPION Wood, a Muskoka Man, Wins the T.C.C. Double Blade Trophy. The Overboard Tandem Contest Produces Much Fun and Excitement.

The Toronto Canoe Club's fall regatta on Saturday produced a new paddling champion. The new man is H. Wood. He is a production of the Muskoka Lakes Association, and has only been a member of the Toronto Canoe Club a short while. On Saturday Wood won the Toronto Canoe Club's international double blade trophy, the single blade race, and with J. R. Gay, was second in the tandem.

The trophy race was a mile straight away, starting at the wharf and finishing at the clubhouse. Wood's opponents were J. McE. Mowat, of the Kingston Yacht Club, and his clubmates, F. Taylor and E. McNeichel. Wood, who paddles in a sitting posture, set a hot clip at the outset, and held the first three hundred yards and dropped McNeichel. Mowat and Taylor held on well, but Taylor steered wildly and went away outside of the course. Mowat was only a couple of boat-lengths behind Wood when he ran into the buoy on the yacht Albatross, which was in the way of the course, and put himself out of the race. Wood kept up the pace, and Taylor quit a hundred yards from the finish, and Wood won as he pleased.

The single-blade race was the first event after the double-blade championship. Again the struggle was between Frank Taylor and Wood. The start was given by Taylor, Wood, E. McNeichel, C. H. Richards, R. N. Brown and J. R. Gay. The distance was a quarter mile to a set of buoys and back again. The first half was together until the buoy, when Taylor and Wood pulled and Wood sprouted. Taylor again held an outside course, while Wood hugged the inner line. The fight for this event lasted right up to the line, when Wood, by a couple of powerful strokes, managed to send the nose of his canoe across the line a foot in the van.

The Reg brothers won the tandem race, with Gay and Wood second. Taylor and Sylvester third. McNeichel and Rogers also finished. The overboard tandem race was won by McNeichel and Smith, with the Reg brothers second. The overboard race is a test of dexterity more than speed. The start is made as in a paddling race, but at six feet all competitors are compelled to jump overboard, then climb into the canoe and finish. Both canoes filled with water Saturday, and the race became a swimming race. McNeichel and Smith proved themselves powerful swimmers, and covered their canoe across the line a half a length in the lead of the Reg brothers. In the tiling contest, the Reg brothers outstriped the rest of the fleet and carried off the prize. The tandem mile was declared no race on account of a series of fouls at the buoys, and will be paddled again to-night.

SUMMER IS ENDED. The Holiday Season Practically Over on Hudson's Inland.

The summer girl is leaving the island. The hotel at Hamilton's Point closed Saturday, and the refreshment stands are pulling up their shutters. The ball games and entertainments are over for the season, and the seats were all collected this morning and piled up in the cage. Popcorn fritters were cheap on Saturday, and the bare-legged island urchin invested large sums on the break in the market. The Point has a deserted look, several of the big steamers being laid up for the winter, and many of the campers are packing up.

WHAT TIME PRISONER SAID. A celebrated judge was once trying a case where the accused could only understand Irish, and an interpreter was accordingly sworn. The prisoner said something to the interpreter, and the latter replied: "What does he say?" demanded the judge. "Nothing, my lord." "How dare you say that, when we all heard him? Come, sir, what was it?" "My lord," said the interpreter, beginning to tremble, "it had nothing to do with the case."

SERVANTS' VACATIONS. One branch of the governing class has been found out in its recreation. The manager of the employment department of the Swedish National Association at Chicago says that three thousand servant girls of that nationality in the city are visiting home this summer. Complaints there are more than usually loud of the scarcity of domestic help and its unsatisfactory character.

INDO-CYLON TEA. and Villa, of the Parkdale Sailing Club, fourth, with Cokeraw, of the Royal Canadian Club, fifth, and Glanor, the National Club craft, last. Glanor, a balling skiff, won the race for 15-footers with a very narrow margin. The Parkdale Sailing Club, was well up with the other two when the rudder-bleed dropped out of its fastening and the craft from around the race. The rudder then fell out of the race completely. Marie had an excellent chance of capturing the event. The breeze was freshening, and the fifth Hamilton Jay took boat at its best in a steady breeze and a flat sea.
