EAST GALE AND RAIN, HOW D'YE FANCY IT?

Weather Man, Who Isn't Easily Disturbed, Says It's Normal.

40-MILE WIND TO-DAY

But, Being From East, the Gale Had Unusual Effects.

The most unpleasant weather of this summer visited Toronto and the greater part of Ontario to-day, although the weather man at the Observatory refutes the suggestion that the gale and driving showers are anything more than a usual summer storm. It is the combination of the gale, rain, and drop in temperature which make it seem so severe, but otherwise there is nothing abnormal. The wind velocity did not go higher than about 40 miles an hour, and the temperature was generally about 60 throughout the lower portion of the Province. For two days in the beginning of July there was a wind storm which attained a velocity of 56 miles an hour, while a drop in the temperature to 60 is not unusual. The weather man also points out that an easterly gale always appears more severe than a westerly gale, which is far more common. The gale was at its height about noon and will probably die down by nightfall. The rainy weather will likely continue to-morrow, however.

The storm gradually came up during the night, growing stronger all morning. A disturbance in the north and another just south-west of Lake Erie are given as the cause. The unpleasantness covers almost all of Ontario. The gale is felt mostly in the southern half of the Province, while in the north the predominant feature is low temperature, the mercury having dropped almost to freezing point at several places. At White River to-day the temperature was 34 and at Cochrane 38. Northern Ontario, however, is always subject to these sudden cold spells.

Rough on the Lake.

Lake Ontario and the Bay were given a good old-time stirring up last night when the heavy east gale sprang up at nine o'clock.

Captain Chapman and his life saving crew at the Island had numerous calls. At 9.30 p.m. a launch, in making the eastern gap from the lake, ran ashore and was towed off without mishap. At 10.40 another launch was washed ashore opposite Stop 21 on the Lake Shore road, and had to be pulled off. Early this morning a yawl was brought in from the lake to the National Yacht Club.

Sail boat moorings on the bay were given a severe testing. At the Queen City Yacht Club Lou Marsh's mackinaw broke loose from her moorings, drifted over beside the float of the Argonaut Rowing Club, and hammered against the Argonaut launch and the float from an early hour this morning. Both boats were severely damaged by the bumping. This is the only boat known to have broken from its mooring.

Farmers Are Disappointed.

The rain and dull weather to-day came as a great disappointment to the farmers throughout the Province, who have been hoping for lots of sunshine which is greatly needed to ripen the crops.

Although there have been few real warm days so far this summer the weatherman cannot promise anything along this line. He laughed at the suggestion that this spell of cold and windy weather might mean several days of clear skies and heat following, saying that there is nothing more uncertain at this time of the year. The temperature this summer in Toronto has not been higher than 86, although the thermometer ranged well about 84 on the three days over the holiday. Just now the observatory has no warm weather in sight.

In the West the farmers are continuing to have almost ideal weather for the ripening of their crops. There has been fine weather during the last few days in the three Prairie Provinces, and it looks as though it will continue, although there were a few showers in Southern Alberta to-day.

Tourists and Summer Visitors

to Toronto should not fail to call and inspect our wonderfully full and choice showing of

Traveling Rugs for Motor or Steamer

These come in a grand variety of handsome Color Schemes, including a big showing of **Scottish Clan, Family, and Regimental Tartan Patterns**, stock just augmented by fresh arrivals ranging $1.00, $3.00, $5.00, $9.00, $12.00.

Other Exclusive Tourist Requisites

Will be found in our splendid showing of **Fine Wool Shawls**, including **Real Hand-Knit Shetland**, also similar machine-made styles, **White Honeycomb** and **Indian Silk Knit Shawls**, indispensable for water travel comfort.

Exclusive showing of

Ladies' Costume Cloths in Wool and Silk and Wool

Fine Silk Weaves, in every variety of color, and for every class of wear.

Table Cloths and Napkins

Of Fine Pure Linen, from medium grades to the finest in the world. **Fancy Linen Pieces and Pillow Cases, Embroidered Bedspreads, Luncheon Sets, Bureau Covers, and Sideboard Runners, Embroidered Towels, etc., etc.**

All secured before recent heavy advances, and now passed along for Summer gift-making at unknown prices elsewhere to-day.

JOHN CATTO & SON

55 to 61 KING ST. EAST,

TORONTO.

Storm Signal

The Lake Sailing Skiff Association have called off the finals of their r... gatta due for this afternoon, owing to rough weather. They will take place to-morrow.

Rain Equals C. P. R. Building.

Area of Toronto, 34.16 square miles.

Tons of water, 1,485,624.

The amount of water contained in the above would make a column a similar area to the C. P. R. building, and almost one and a half miles high.

The only other rainstorm of this year in the same class as to-day's, was that on July 7, when for the whole day, the rainfall registered 1.10, which meant that the city was deluged with 2,723,647 tons.

Band Concert Postponed.

The Patriotic meeting which was to have been held in Baird Park this evening under the auspices of 12th Regiment York Rangers, has been postponed owing to the inclement weather.

Owners Fear for Yachts.

At the Queen City Yacht Club the opinion among the sailors was that they had never seen the Bay so rough. The waves at the wharf were six feet high, and out in the lake they were breaking over the eastern pier. Most of the owners of boats were down at the club wharves and docks, placing additional anchors to the boats, and gathering in many of the boats which had broken loose. The waves were dashing over the docks at the City Marine Department at the foot of John street, and an enquiry at the office was met by the statement that while no damage had as yet been done, the waves were dashing at the wharves in a hair-raising fashion.

Sail Boat Drifts Ashore.

"It's quite a sight down here," came from Scarboro Beach Park. "The sea is rough and a sailboat has drifted ashore. It broke away from somewhere or other. I don't think anyone was in it at the time. I have not heard of any drownings. I don't think small craft ventured out to-day."

Weather Won't Interfere.

Despite the weather, the meeting announced to take place at the Mississauga Golf Club to-night to discuss the organization of an association to assist the 74th Battalion in the purchase of eight additional machine guns and to stand behind this battalion for other supplies and help that it may need, will be held.

Rain Menaces Wheat Crop.

"To-day's rain is being watched with anxiety," said Deputy-Minister of Agriculture W. Bert Roadsouse this afternoon. "The great danger is to the wheat which is uncut and the wheat which is cut and standing. Only a small percentage of it has been gotten in. We are rapidly reaching the danger point, and if the rain goes on much longer it will be serious. If it stops and we get reasonably warm weather it may be all right. We haven't had too much rain up to date for the root crops. 1812 was a bad year due to the rainy season, and it is to be hoped we are not to have a repetition this year."

Giant Elm Fell.

A giant elm fell at the ferry dock at Centre Island and plunged down across the path.

DUFFERIN PARK ENTRIES

Dufferin Park Race Track, Aug. 3.—Official entries for the fourth day's races at Dufferin Park:

First Race, about five furlongs, selling:

xLady Isle	103	xFinisher	103
Lady Benzol	105	Uncle Fitz	107
Briny Deep	107	Strange Girl	108
Julia Lyons	108	Sainonia	108
Caraquet	108	Maud Ledi	112

Second Race, about five furlongs, selling:

xOkolona	104	Lou Lanier	103
J. H. Barr	111	Johnny Harris	111
Little Ep	111	Abdul	111
Janus	111	Carissimo	113

Third Race, about five furlongs, selling:

Greyville	101	xJ. Nunnally	105
Littlest Rebel	108	Miss Christie	108
Moss Rose	108	Mrs. Lally	108
Rose Ring	108	Sir Galahad	110
St. Bass	110	Billy Stuart	110

Fourth Race, about five furlongs, selling:

Daisy Stevens	101	K. of Pythias	103
Golden Ruby	108	xEl Mahdi	108
Ray R. Miller	110	Constituent	110
Fawn	112	Molsant	112
Dick Deadwood	113	Rye Straw	112

Fifth Race, seven furlongs, selling:

xMarvelous	98	Columbia Lady	101
xCordie F.	103	Imprudent	108
Rio Brazos	110	Mrs. Mc.	112
Glint	113		

Sixth Race, 6½ furlongs, selling:

xMike Cohen	110	Rose O'Neil	113
Delegate	115	Barn Dance	116
Gallant Boy	116	Geo. Stoll	116
Charley Brown	116	Col. Holloway	118

Seventh Race, 6½ furlongs, selling:

xReflection	96	Dixie	105
Hello	105	Miss Sherwood	108
Marty Lou	108	Frigid	110
Blooming Posey	101	Cisko	110
Zail	110		

Eighth Race, 6½ furlongs, selling:

Stick Pin	113	Barrette	113
Martre	113	xDromi	113
Chas. McFerran	115	Eyewhite	116
Noble Grand	115	Master Jim	116
Love Day	118		

xApprentice allowance claimed.

CANADIANS GET WORK.

Mechanics Are in Demand in England.

Special to The Star.

Ottawa, Aug. 3.—According to advices received by the Department of Labor, Canadian mechanics who have gone to Great Britain to work in munitions factories are being placed as soon as possible after their arrival on the other side. Recently a party of fifty-six Canadians who sailed for Liverpool were landed at Plymouth owing to a submarine scare. After waiting for a few days some of them who had not received work complained to the High Commissioner's office, with the result that work for practically all the members of the party was secured without delay. Even in this instance twenty-two of the fifty-six Canadians were placed on the day of their arrival. While efforts are made to send Canadians to districts of their own choosing, it is pointed out that this is not always possible. Officials of the Labor Department know nothing as to the complaints that Canadian workmen who have been sent to England are being under-paid.

Percy Potter Remanded.

Percy B. Potter, charged with administering liquor to a minor, was remanded one week, Crown Attorney Corley intimated that bail would not be granted. Potter left the city when two girls told their stories to the License Commissioners. Potter's companion, Charles Garrott, was recently convicted by Judge Morson.

Let the Victrola Play Your Dance Music

Why keep anybody "tied down" to the piano when the Victrola furnishes the most perfect dance music and allows all to take part?

It renders the latest and best selections for the Fox Trot, the Maxixe, and all the other new dances.

Let us have a call from you. We want to show you the different instruments, tell you the prices and terms, and play for you some of the new records, or your old favorites. Everything in Victrolas, Records, and Supplies is here to choose from, and a comfortable place to do the choosing in.

Out-of-town Customers Write for Terms.

HEINTZMAN HALL

193-195-197 Yonge Street, Toronto.

48TH MAN, TWEEDY, KILLED

Two Canadians, Both From London, Ont., Dead From Wounds.

Special to The Star.

London, Ont., Aug. 3.—A cable today announces the death at the Duchess of Connaught Hospital at Cliveden, England, of Sapper William Buchanan, only son of Dr. John Buchanan, who is now in India as a foreign missionary. Death followed the amputation of his leg. The cable also states that Private Osborne Tweedy had both legs shot off and died from loss of blood. He was twenty-two years old and enlisted with the 48th Highlanders.

THE FORT ERIE ENTRIES

Fort Erie Race Track, Aug. 3.—The official entries for Wednesday are as follows:

First Race, selling, purse $600, 3-year-olds, foaled in Canada, 5½ furlongs:

Lucia's Flame	102	Foxlet	102
xKathleen H.	102	xMiss Fay	103
Orncliffe	107		

Second Race, selling, purse $600, 4-years-olds and up, 1 mile and 70 yards:

xEarly Light	99	xBaby Sister	99
xFirst Star	102	xSher. Holmes	102
Bean Pore	104	Stanley S.	104
Dr. Holzberg	104	Jack Kavanaugh	104
xDick's Pet	105	xAprisa	105
Fellowman	105	Cuttyhunk	107

Third Race, selling, purse $600, 3-year-olds and up, 6 furlongs:

xFair Helen	92	xKatharine G.	92
xZin Del	99	Egmont	102
Commensla	103	xVidet	103
xRedland	105	Langhorne	106
Brandy Wine	108	xYorkville	109
Pontefract	110	The Busybody	114

Fourth Race, $5,000 added, the Dominion Handicap, 3-year-olds and up, 1⅛ miles:

Borrow	120	Waterhaas	120
Tactics	108	aIndolence	102
aCommonada	105	Rancher	104
Pardner	102	bFountain Fay	102
bKing Hamburg	97	Barnegat	100
Carbide	96		

a Austin entry. b Thorncliffe stable entry.

Fifth Race, purse $700, handicap, 3-year-olds and up, 6 furlongs:

Dodge	115	Anita	107
Port Light	103	Bambi	103
Tar Brush	106		

Seventh Race, selling, purse $600, 3-year-olds and up, 1 1-16 miles:

xStalwart Helen	97	xMartian	103
Burwood	100	Progressive	100
Pardner	103	Bob Hensley	112

xApprentice allowance claimed.

Weather rain. Track sloppy.

HELPLESS, WASTED CHILD

Completely cured by the Wonder-medicine of Great Britain—

DR. CASSELL'S TABLETS.

Canadian Mothers, don't let your babies suffer; the remedy is here.

Could more convincing proof be offered or required of the altogether amazing power of Dr. Cassell's Tablets than that which follows? It is the testimony of a British mother, given spontaneously, given gratefully. Here it is: "Dr. Cassell's Tablets merit all the praise they have ever received," says Mrs. Charlton, of 60 Station road, Basington, Co. Durham, England. "They cured my child him, England. "They cured my child when nothing else could. Following rheumatic fever, Wilfred just wasted away, and all power went from his left side. We had medical advice, after which we took him to hospital, where for seven months he was treated. He came out still helpless. He could only drag about, trailing his useless foot along the ground. Both the left arm and leg were completely useless, and there seemed no prospect of there ever being anything else. But when we commenced giving Dr. Cassell's Tablets power slowly returned to his limbs. He learned to walk freely, and now at eight years old he is at school, full of life and vigor." Dr. Cassell's Tablets were the only remedy, as they have been the only remedy in effecting many equally remarkable cures. Trust to Dr. Cassell's Tablets for Nervous and other forms of Dyspepsia, for Nerve Weakness, Nerve Failure, Neurasthenia, Neuralgia, Anaemia, Palpitation, Debility, Wasting, Kidney Trouble, Lame Back, Vital Depletion, and for weakness and wasting in children. Mothers will find them specially valuable while nursing, and during the critical periods of life. Keep a supply by you in case of need. All druggists and storekeepers throughout the Dominion sell Dr. Cassell's Tablets at 50 cents. A Free Sample will be sent to you on receipt of 5 cents for mailing and packing, by the sole agents for Canada, H. F. Ritchie and Co., Ltd., 10 McCaul street, Toronto, Ont.

VERDUN IMPREGNABLE

Underground City Defies All German Attacks.

Verdun, via Paris, Aug. 3.—The German hammering at Verdun, the fortress on which the drive of a year ago went to pieces like a wave on a rock, may continue for years and years without making the slightest impression.

The underground life with which the trench combats of this war have familiarized the world, and which the modern soldiers already are accustomed, here has reached its climax in an immense underground city prepared for the defenders of the key to northern France. Miles upon miles of streets, alleys, and public squares, chambers stocked with wine, flour, and tinned meats, and lodgings recreation rooms, a bakery equipped to make bread for fifty thousand men, and heat, light, and telephones, like a modern apartment house, have been constructed beneath the smiling, unrevealing surface of the meadows of the valley of the Meuse surrounding France's barrier which has been placed in the path of whoever attacks from Metz.

On the level of the old moats of the ancient fortress, 75 feet below the summit, the galleries begin. There are no evidences in the most perfect military preparation that already have been completed of any lack of ammunition necessary to stand an old-fashioned siege. Here also the staff is quartered and an entire army corps can easily be accommodated underground with everything necessary for its livelihood for months.

The last violent bombardment by the German long-range guns was a wasted effort. The stronghold was not even scarred.

CRY FROM DARK WATERS

Not From Drowning Victims, But From a Megaphone.

Above the boisterous wind, and over the dark waters, came a cry of distress about 9.30 last night.

Two hundred persons at the R.C.Y.C. were agitated. The mournful sound from the gloom was repeated. One woman fainted. The bowlers left the lighted green. Several young men jumped into dinghies. The club launch swung about and followed the vocal signal of danger.

A telephone message had gone to the life-saving station. Soon the lifeboat came into view, with searchlight blazing and rockets flaring.

Before long a circle of craft girdled the mystery zone. The secret was out. On a private yacht, tugging at her moorings, some young people were making merry, and one was blowing through a megaphone.

Almost 200 R.C.Y.C. members and friends felt like saying things. Perhaps some did say them.

A SEATTLE DREAM.

No Wholesale Expulsion or Flight of Germans to New Mexico.

Canadian Press Despatch.

Ottawa, Aug. 3.—The Dominion Justice Department is at a loss to understand a Seattle despatch this morning to the effect that several hundred farmers of German birth who were expelled from Canada or fled to this country to escape internment are now at Seattle and that 1,000 of them plan to establish a farm colony on the other side of the border.

"We have expelled no German farmers unless perhaps an occasional one with a jail record who would be classed as an 'undesirable citizen,'" was the statement made at the Justice Department this morning. "Quite possibly some have fled to escape internment, but not many. As a matter of fact very few German farmers have been interned at all. Some have been warned and then sent back to their farms and most of them are too busy with the harvest to raise much trouble. On the whole the German farmer of the west has been well behaved."

OFFERED COURT AN OPTION

Practical Argument Against Assessment—Court Will Consider Plea.

Court of Revision held its first session to hear assessment appeals from Ward Two to-day.

Mr. Geo. Woods of Trinity Square valiantly appealed against his assessment on the ground that increase in foreign population had depreciated his property.

John Peacock offered to give an option on his property at Sackville street and Eastern avenue at $11,000, though it is assessed at $12,306. "I have not received more than one per cent. on the investment," said Mr. Peacock. The court will consider.

U. S. COTTON-MEAT ULTIMATUM TO BRITAIN

(Continued from Page One.)

program through in one way or another.

Their plan, in brief, is to demand that the allies cease all interference with their shipments to neutral European ports, in the event of a refusal, they call for an extra session of Congress to put an embargo on American shipments of all kinds to any of the allied nations.

Their business has already suffered so seriously, they said, that they do not propose to wait indefinitely for British compliance with their wishes. It is for this reason that they seek a time limit—amounting to an ultimatum—in the President's next message to London.

Failing to get an extra session, they admit there will be nothing for them to do but await the regular reassembling of Congress in December. They declare they will make their fight then, however, if compelled to wait so long, with all possible energy.

A Publicity Campaign.

Arrangements were known to-day to be already in hand for an aggressive publicity campaign to promote their plans.

Their view is that Germany's submarine activities, by involving the loss of American lives, overshadowed the damage done by the allies' blockade, which meant loss only of property.

They make the point, however, that Germany, in practice, if not in theory, bowed to American wishes relative to submarine warfare, while the British refuse the slightest concession either in theory or in practice.

The purpose of the press campaign will be to impress this on the American public's mind.

It is not pretended that the proposed embargo is a new idea. Its advocates say they are going to make it a live issue now, however, and unless the British come to terms quickly, to make a last-ditch struggle for it.

Don't Want Livery Stable.

At the Civic Property Committee to-day residents of Charles street protested against the use of a vacant building at 49-51, owned by J. S. McLean, for livery purposes. Counsel for Mr. McLean urged that the property was used as a stable before the by-law placing restrictions on the district was passed. The committee will get the opinion of the City Solicitor.

MURRAY-KAY, LIMITED

MURRAY STORE, 17-31 KING ST. EAST | STORE HOURS: 8.30 a.m. to 5.00 p.m. Saturday closing hour, 1 p.m. Telephone Adelaide 2380. | MAY STORE 36-38 KING ST. WEST

Sale of Women's Pumps, Oxfords and Boots The Regular Prices, $4 to $6; Wednesday, $2.95 Pair

It doesn't matter whether you're in need of a new pair of smart **Pumps, Oxford Ties, or Button Boots**, you'll find what you want in a special assortment of footwear, regular $4.00 to $6.00 grades, which we shall place on sale to-morrow at **$2.95** a pair. Here are particulars:—

Misses' Wash Suits in Linen And Ratine, $20.00 and $22.00

Fresh and dainty must the summer girl be if she would fully live up to her name. And nothing conduces more to the attainment of this end than the possession of a smart wash suit or two.

We have a very charming model in heavy linen, pink or delf blue, the skirt buttoning in front with pearl buttons, both coat and skirt equipped with patch pockets. Price.....$20.00

Another attractive model has a pink ratine coat, bound with silk braid, and white ratine skirt. Price.....$22.00

This New Wool Sweater Coat Very Moderately Priced at $2.75

This new Sweater Coat has just reached our Hosiery Section, and because we think it particularly smart, eminently useful and remarkably low in price, we want to tell you about it.

The coat is knitted of white Shetland wool, with bands of black, emerald, Copenhagen, or the modish shade of sunny yellow, the same colors being shown in the striped detachable sash, which is held in place by loops at each side. This sweater will make a charming wrap for present wear, and later in the season it will be delightful to wear under one's coat, minus the sash. It is very moderately priced at..$2.75

STORE HOURS: 8.30 A.M. TO 5.00 P.M. — MURRAY-KAY, LIMITED — TELEPHONE: ADELAIDE 2380.

Red Cross Will Continue.

New York, Aug. 3.—Announcement that the American Red Cross will withdraw in October most of its units now on duty in the various belligerent countries of Europe does not mean that the activities of the American organizations in these countries will be terminated, according to Mrs. Wm. K. Draper, secretary of the New York chapter of the Red Cross. On the contrary, it was stated, the Red Cross will continue to send supplies to the European Red Cross organizations and will aid them by contributions of funds.

Five Guns From St. Kitts.

St. Catharines, Ont., Aug. 3.—St. Catharines has already given four machine guns at $1,000 each to the Empire. They were given by J. D. Chaplin, the lawyers of the city, the public accountants and Robert Hargraft. The public is subscribing fifth.

25% ADVANCE ON THIS OIL STOCK SATURDAY, AUGUST 7

To Investors:

Good propositions do not wait long. For a short time you have been offered a part of this stock for development purposes. Some knockers may ask: "If it is such a good thing, why do not home people take it all?" But it takes millions of dollars to build up a great national competitor of the oil monopoly. A crisis was brought about a few months ago by this monopoly to aid its henchmen to practically grab the oil in the high-grade Cushing oil fields. Prices of the refined products were lowered around the local refineries and everything possible done to drive out of the oil business everybody but the trust. The State and National officials that could bring ouster suits under State and National anti-trust laws are either afraid of the political power of the trust or too busy at something else—and so the trust has a clear field. Meantime the larger part of the great Osage Nation oil and gas fields will soon be on the auction block. During this crisis high-grade oil was put down as low as 28 cents per barrel. Gasoline has been lowered in the Middle-West and advanced in other districts of the nation all in the same week. Crude oil at such prices would be like corn at 5 cents per bushel or wheat at 15 cents per bushel.

The so-called independent oil men are the biggest noise-makers and the poorest organized body of citizens in the business world. Of course, they have to fight the most powerful of all the criminal trusts.

The farmers are organized so that their corn and wheat cannot be taken at a conspiracy price, but not so with oil.

Necessity is the mother of invention. When the oil monopoly started a war on the Kansas producers a few years ago a group of pioneer producers organized The Uncle Sam Oil Company to protect their properties and to build in the Middle-West a real, independent producing, refining, and marketing company—a competitor of the trust to be **worthy of the name.**

The Company at times has been made to travel a rocky road, but the Kansas pioneers are of the staying kind, and hardships and persecution caused our leaders to strive all the more determinedly.

The Uncle Sam Oil Company built the first three refineries in Kansas and Oklahoma. Built the first independent pipe line in the Middle-West. Our pipe line is now completed and in operation for 151 miles. It connects two refineries in two States and 117 of our oil wells, and the larger percentage of our oil lands and leases.

The Uncle Sam Oil Company built and has maintained the first marketing stations direct to the people over Missouri, Oklahoma, and Kansas. It entered this field as a pioneer—the first to defy the trust in this rich district in **forty years.**

The competition the Uncle Sam Oil Company pioneered and has bravely maintained has caused the people of the Middle-West to secure a better grade of refined oils than formerly was furnished, and also at a reduction in price of several million dollars.

The trust has secretly placed its henchmen into the State and Federal offices, and then struck at us with all its venom, aided and abetted by officials that should have been our protectors. Big monopoly newspapers, investment journals, and uplift magazines that are kept by the criminal rich to mislead the public by false editorials and news comment in favor of the schemes of the Wall Street wolves have fall at times opened their concealed batteries. But Right is a mighty warrior, and through it all the Uncle Sam Oil Company has continually increased its assets.

It has thousands of acres of oil and gas leases properly located in the big oil countries in Oklahoma, and over fifteen hundred acres of deeded lands.

The greatest high-grade oil field in the world is in Range 7 in Osage, Pawnee, and Creek Counties, in Oklahoma. In the same district in this Range 7 our company controls two hundred acres of deeded land and has nearly **three thousand** acres of oil and gas leases. We have locations now where drills should be started in about fifty different places.

The big banks do not dare to extend reasonable credit to The Uncle Sam Oil Company because our Company is fighting the big monopoly with real teeth. The Company is pioneered. We just won a recent great victory by decision from the Supreme Court of the United States exempting our pipe line.

This victory makes The Uncle Sam Oil Company pipe line the **only exempted pipe line** from common carrier liabilities in the United States, and has caused the trust to abandon its legal attacks on the big national success of our Company.

Its only weapon now is to try to interfere with the Company raising sufficient capital to become a big success by insinuation in its kept press and by its wrecking crew conspirators and scandal-mongers. The trust wants to grab the Osage Nation oil and gas fields of one million five hundred thousand acres, and then double the price of domestic gas in 100,000 homes in Kansas, Missouri, and Oklahoma.

A Government controlled lease expires in about eighteen months on 680,000 of this Osage Reservation. The Uncle Sam Oil Company has an Osage lease through the centre of the Osage oil and gas reserve of 658,000 acres. We proved in Federal Court that this lease was honestly secured. But it was turned by a high Government official, who has since appeared in several cases for the trust.

Three high officials were branded by our Company as oil trust tools, betraying their public trust, and later quit the Interior Department. These three were among the conspirators that fought this lease to our Company, and have since gone into the open pay of the monopoly gang.

We have over fifteen thousand stockholders, representing every Congressional district under the Stars and Stripes. We want five thousand more red-blooded Americans to remit from $10 to $360 each, and join our independent army, so we can soon start a national publicity campaign that will protect our great Osage lease from the fixers for the trust.

The Uncle Sam Oil Company contends that the Secretary of the Interior or Congress shall write in the validation of our 658,000-acre Osage lease and in all other Indian leases a clause authorizing the Utility Commission of the different States where the product is sold the right to fix the price to the people on all oil and oil products and gas from this Federal Government controlled lease.

Every honest citizen knows this is common sense and **right.** But it would stop a trust grab. It would interfere with a part of the loot that the trust secures and divides with certain fake **progressive** newspapers and uplift magazines that "squawk" about the right of the "dear people" whom they are being paid to help deceive.

We will furnish names of crooks in high office and the newspaper and magazine allies of the oil and gas monopoly in due time when the big fight starts for the final protection of our great Osage lease.

However, we can succeed—we can pay big dividends from our present properties when developed, while we are securing the validation of our Osage lease.

WITHIN 7,000 FEET OF A 6,000 BARREL WELL.

During the past few weeks the Company has secured by warranty deed a two-thirds interest in 160 acres in nearly the centre of the township that contains nearly all of the great Cushing gushers. At a cost of sixteen thousand dollars it has secured another lease cornering with this deeded land.

MAY SOON HAVE A 10,000 BARREL PRODUCTION.

We have what indicates now thirty (30) deep sand locations on these two properties in the Cushing District. Some 5,000 to 6,000 barrel wells may be secured on some of this property. There are five producing oil sands in this district. The oil is rich in gasoline.

We can get rich operating the small wells, but our chances for gushers will be recognized by anyone who will visit this property. There are about twenty wells within a short distance. A 6,000-barrel well was drilled a few weeks ago in the section that corners the section that contains our new property.

To make money you must invest where money is being made. The Cushing field has produced nearly **one hundred million barrels** of oil. We could have purchased this district a few years ago at from $3.00 to $10.00 per acre.

Oklahoma and parts of Texas is the greatest oil field in America. Millions have already been made and millions will be made. The Uncle Sam Oil Company is established. It has demonstrated its ability to protect itself from the trickery of the trust. It is controlled by a board of twenty-one directors. All are large stockholders. If you wish to combine profit with principle and help rout the Oil Trust and its Ludlow henchmen in the Middle-West, join with a **Real People's Company** that is gaining every day.

The opportunities for the moderate investor are few, and are becoming fewer every day. The conspiracy of the powerful rich is to monopolize all the mineral resources of the United States. Keep the people divided and force their money into the trust-controlled financial institutions. Then pay the people on such savings 2 to 3 per cent., while the big bunch will then develop these rich resources and make 25 to 50 per cent. We offer the small man a chance to be one of the promoters and make 25 to 50 per cent. We believe it is better to try and do something worth while than to consent to a small return and let the big bunch grab all the big profits.

With our already big property and national organization we can beat the foxy rich at their own game. You alone could do but little, but combined with 20,000 other stockholders, you become a forceful part of an organized army that will succeed and pay a big profit and be a blessing to the public in the nation, just as it has been and is now in Missouri, Oklahoma, and Kansas.

We do not wish to encourage anyone to over-invest. There are probably 50,000 figuring on this stock. This notice will reach about ten million readers.

A CONDITIONAL DIVIDEND AT ONCE.

The present stockholders may soon accept all the stock left; 268,000,000 shares are now owned by over 15,000 **stockholders;** 32,000,000 are still to be issued. There is a provision in the charter that protects the stockholders from all trust control. Be practical. America is the opportunity of the world for the small investor. The Oklahoma oil fields contain the real money-making opportunities of America at the present time.

With sufficient capital we can secure properties now that in six months could not be bought. Time is money in these rich oil fields. We are driving ahead. Wish to start six to ten drills. Want to secure other properties before they advance 100 times. You will secure an allotment back with your stock, which is a **conditional dividend.** A blind man **should** see that this company is a winner. If you hesitate too long the stock will be gone.

TWENTY-FIVE PER CENT. ADVANCE SATURDAY, AUG. 7TH.

During the past few weeks, at a cost of over forty thousand dollars, new properties have been secured, including a solid block of land and leases in nearly the centre of the Township that contains about all of the great Cushing gushers. The last of these properties was secured yesterday, and by the middle of next week the drills will be moved in. Either two or three wells will be drilled at once. We will soon reach the first oil production, and may have some splendid wells in the Layton sand, which is very rich in gasoline, in three or four weeks. Before you know it the drills will go down to the deep production where from a 2,000 to 5,000 barrel may put this **real oil stock** out of your reach **forever.** The advertised price of this stock will be advanced twenty-five per cent. **Saturday, August 7.** Your remittance must start not later than date to secure the stock before the advance.

Either send your remittance at once or **write quick for further particulars.** Remember, thousands are figuring in this stock. There will be one great rich opponent of the Oil and Gas Monopoly, and that will be **The Uncle Sam Oil Company.**

The Company is organized and conducted according to LAW. Stockholders living right by our properties are the heavy investors. Several of the directors have invested in cash from $7,000.00 to $15,000.00, and some from $28,000.00 to $40,000.00.

This proposition is an open book. We take the public into our confidence. Do not waste your effort in some little concern. Combine with an army of investors that are building on a broad, national basis. Our chances are good to develop a 10,000-barrel production in the immediate future and then save our great Osage lease. Such combined results would force this stock up to a **half-dollar per share.** An advance to **five cents per share will make big money for each stockholder.** If you have the good judgment to distinguish a winner from a loser, the genuine from a fake, and **right** from wrong, you will not delay, but secure a good block of this stock at once. Advertising space comes high, or we could furnish so much proof that all this stock would be accepted by return mail, and will gladly send you further particulars or forward such particulars with your order for stock at this time.

The stock is non-assessable, and the cash payment, together with your agreement to remain loyal to the company, is accepted by the Company as full payment, if the Company approves you as a stockholder. It wants none but loyal, patriotic, liberty-loving citizens as its stockholders, and therefore reserves the right to approve or reject any subscription to its stock. If you should not be approved your money will be promptly returned to you.

For Reference—You can write to either of the big Mercantile Agencies at Kansas City.

Special offer is as follows:
