# JUST LOOK AT THAT TREAD IMPRINT!

See why G.P. Roadflight Tires provide more non-skid grip, more traction for quick start and pick-up, more braking surface than any other same-price tire. This tread is wider, deeper, has more gripping edges. It puts more rubber on the road—new, tougher, longer-wearing rubber that's good for thousands of extra miles.

Friendly little Gutta Percha Thoroughbred identifies Gutta Percha Service. Look for him in the GP dealers'

Its Sales are Soaring!.... SEE THE SENSATIONAL NEW

# MADE BY GUTTA PERCHA)

Be sure to see it before buying any other tire. It's as new as the new cars, a sensational value, without doubt a tire without equal at its price. Compare it, in any way, with any other tires of the same price . . . in depth, width and toughness of tread, in traction, road-grip and braking power, in

sidewall strength, in protection against blow-outs...every comparison you make with other tires emphasizes that the Roadflight gives you more for your money. Its sales are soaring because it is Canada's Blue Ribbon Tire Value ... a lower priced thoroughbred quality Tire!

### Make the DEEPER TREAD TEST

Take your business card and stand it in the tread pattern, as shown above. Mark the depth! Then stand the same card in the tread of any other tire of the same size and price. Note that all other treads are too shallow to come up to the mark - proof positive that the Roadflight Tread is deeper, safergood for more miles.

### Make the **GREATER WIDTH TEST**

Above right: Lay a long envelope Right: The smartly distinctive, across the Roadflight Tread and mark the width! Similarly measure beyond tread edges.

### Note the SMARTER APPEARANCE

different design of the new Roadflight Tire tells instantly of the other tires of the same size and price. Note this: the Roadflight tread is definitely wider than any tire at the same price, and equally as wide as more expensive tires of comparative size. What's more, here's extra width of shoulders beyond tread edges.

Ingnt lire tells instantly of the extra value put into its construction. It's bigger, wider, contains more rubber than any other same-price tire... a tire you can travel on confidently because of its thoroughbred looks. thoroughbred looks.
